Troubleshooting and Maintaining Cisco IP Networks (TSHOOT) Foundation Learning Guide

Foundation learning for the CCNP TSHOOT 642-832

Amir Ranjbar, CCIE No. 8669

Cisco Press

800 East 96th Street

Indianapolis, IN 46240

Table of Contents

Introduction xvi

Chapter 1 Planning Maintenance for Complex Networks 1

Applying Maintenance Methodologies 1

Maintenance Models and Methodologies 2

Determining Procedures and Tools to Support Maintenance Models 4

Maintenance Processes and Procedures 5

Network Maintenance Task Identification 6

Network Maintenance Planning 7

Scheduling Maintenance 7

Formalizing Change-Control Procedures 8

Establishing Network Documentation Procedures 8

Establishing Effective Communication 9

Defining Templates/Procedures/Conventions (Standardization) 10

Planning for Disaster Recovery 10

Network Monitoring and Performance Measurement 11

Network Maintenance Tools, Applications, and Resources 12

Fundamental Tools, Applications, and Resources 12

Configuration and Documentation Tools 15

Logging Services 16

Network Monitoring and Performance Measurement Tools 17

Implementing Backup and Restore Services 18

Disaster Recovery Tools 22

Summary 23

Review Questions 27

Chapter 2 Troubleshooting Processes for Complex Enterprise Networks 31

Troubleshooting Methodologies 31

Troubleshooting Principles 32

Structured Troubleshooting Approaches 34

Top-Down Troubleshooting Method 35

Bottom-Up Troubleshooting Method 36

Follow-the-Path Troubleshooting Method 36

Spot-the-Differences Troubleshooting Method 37

Move-the-Problem Troubleshooting Method 38

Troubleshooting Example: Methodologies 39

Implementing Troubleshooting Procedures 41
The Troubleshooting Process 41
Defining the Problem 42
Gathering and Analyzing Information 43
Eliminating Possible Problem Causes 45
Formulating/Testing a Hypothesis 46
An Example on Elimination and Assumptions 46
Solving the Problem 47
Integrating Troubleshooting into the Network Maintenance Process 50
Troubleshooting and Network Maintenance 50
Documentation 51
Creating a Baseline 53
Communication and Change Control 54
Change Control 56
Summary 57
Review Questions 59

Chapter 3 Using Maintenance and Troubleshooting Tools and Applications 63
Using Cisco IOS Software for Maintenance and Troubleshooting 63
Collecting and Filtering Information Using Cisco IOS *show* Commands 64
Testing Network Connectivity Using *ping* and Telnet 69
Collecting Real-time Information Using Cisco IOS *debug* Commands 73
debug ip packet [access-list-number]*[detail] 73*
debug ip rip 74
Diagnosing Hardware Issues Using Cisco IOS Commands 74
Checking CPU Utilization 75
Checking Memory Utilization 77
Checking Interfaces 78
Using Specialized Maintenance and Troubleshooting Tools 81
Categories of Troubleshooting Tools 81
Using Traffic-Capturing Tools 83
SPAN and RSPAN 84
Gathering Information with SNMP 87
Gathering Information with NetFlow 88
Enabling Network Event Notification 91
Summary 94
Review Questions 97

Chapter 4 Maintaining and Troubleshooting Campus Switched Solutions 103

Troubleshooting VLANs 103

LAN Switch Operation 104

Verifying Layer 2 Forwarding 109

Troubleshooting Spanning Tree 111

Spanning-Tree Operation 112

Electing a Root Bridge 113

Electing a Root Port 113

Electing Designated Ports 115

Ports Going into Blocking, or Learning, and Forwarding State 116

Analyzing the Spanning-Tree Topology 117

Spanning-Tree Failures 119

EtherChannel Operation 120

Troubleshooting Example: Switch Replacement Gone Bad 121

Troubleshooting Switched Virtual Interfaces and Inter-VLAN Routing 126

Inter-VLAN Routing and Multilayer Switching 127

Switched Virtual Interfaces and Routed Ports 129

Troubleshooting First-Hop Redundancy Protocols 131

Using First-Hop Redundancy 131

Verifying FHRP Operation 134

Alternatives to HSRP 138

Summary 139

Review Questions 142

Chapter 5 Maintaining and Troubleshooting Routing Solutions 149

Troubleshooting Network Layer Connectivity 149

Routing and Routing Data Structures 150

Using IOS Commands to Verify Routing Functions 154

Troubleshooting EIGRP 156

EIGRP Routing Review 156

Monitoring EIGRP 159

Troubleshooting Example: Routing Problem in an EIGRP Network 160

Troubleshooting OSPF 165

OSPF Data Structures 166

OSPF Information Flow Within an Area 170

OSPF Information Flow Between Areas 171

Cisco IOS OSPF Commands 172
Troubleshooting Example: Routing Problem in an OSPF Network 174
Troubleshooting Route Redistribution 179
Route Injection and Redistribution Process 179
Verifying and Troubleshooting Route Propagation 181
Troubleshooting Example: Redistribution from OSPF to EIGRP 183
Troubleshooting BGP 187
BGP Route Processing and Data Structures 187
BGP Routing Information Flow 189
Cisco IOS BGP Commands 190
Troubleshooting Example: Routing Problem in a BGP Network 191
Summary 197
Review Questions 202

Chapter 6 Troubleshooting Addressing Services 211
Identify Common IPv4 Addressing Service Issues 211
NAT/PAT Operation 212
Troubleshooting Common NAT/PAT Issues 215
Troubleshooting Example: NAT/PAT Problem Caused by a Routing Issue 217
Troubleshooting Example: NAT Problem Caused by an Inaccurate Access List 220
Reviewing DHCP Operation 226
Common DHCP Troubleshooting Issues 227
DHCP Troubleshooting Tips and Commands 231
DHCP Troubleshooting Example: Problems After a Security Audit 233
DHCP Troubleshooting Example: Duplicate Client IP Addresses 238
DHCP Troubleshooting Example: Relay Agent Issue 240
Identify Common IPv6 Routing Issues 243
IPv6 Routing 243
Troubleshooting IPv6 Issues 244
IPv6 Troubleshooting Example: Stateless Autoconfiguration Issue 246
IPv6 Troubleshooting Example: Redistribution Issue 253
IPv6 Troubleshooting Example: OSPFv3 Configuration Errors 261
IPv6 Troubleshooting Example: OSPFv3 over 6to4 Tunnel 270
Summary 276
Review Questions 279

Chapter 7 Troubleshooting Network Performance Issues 283

Troubleshooting Network Applications Services 283

Network Application Services 284

NetFlow 286

Cisco IP SLA 289

NBAR 292

SLB 293

QoS and AutoQoS 294

Common Issues with Network Application Services 296

Common NetFlow Issues 296

Common IP SLA Issues 296

Common NBAR Issues 297

Common AutoQoS Issues 297

Troubleshooting Example: Network Application Services Problem 297

NetFlow Troubleshooting Example 298

IP SLA Troubleshooting Example 301

AutoQoS Troubleshooting Example 304

Troubleshooting Performance Issues on Switches 308

Identifying Performance Issues on Switches 308

Troubleshooting Switch Interface Performance Problems 310

Switch Port/Interface Issues 314

Troubleshooting Example: Duplex Problem 315

Auto-MDIX 317

The Forwarding Hardware 318

Troubleshooting TCAM Problems 318

Control Plane: Troubleshooting High CPU Load on Switches 322

DHCP Issues 325

Spanning-Tree Issues 326

HSRP 327

Switch Performance Troubleshooting Example: Speed and Duplex Settings 327

Switch Performance Troubleshooting Example: Excessive Broadcasts 332

Switch Performance Troubleshooting Example: Excessive Security 336

Troubleshooting Performance Issues on Routers 343

Troubleshooting High CPU Usage Issues on Routers 344

Troubleshooting Switching Paths 347

Process Switching 348

Fast Switching 348
Cisco Express Forwarding 349
Troubleshooting Process and Fast Switching 350
Troubleshooting CEF 351
IOS Tools to Analyze Packet Forwarding 354
Troubleshooting Router Memory Issues 357
BGP Memory Use 360
Summary 361
Review Questions 365

Chapter 8 Troubleshooting Converged Networks 371
Troubleshooting Converged Networks to Support Wireless Operations 371
Common Wireless Integration Issues 372
WLAN Connectivity Troubleshooting Example: Misconfigured Trunk 374
WLAN Connectivity Troubleshooting Example: Duplex and Trust Issues 378
WLAN Connectivity Troubleshooting Example: LWAPP Denied by New Security Implementations 382
WLAN Connectivity Troubleshooting Example: DHCP Issues 385
Troubleshooting Unified Communications Issues in a Converged Network 390
Common Unified Communications Integration Issues 390
Unified Communications Troubleshooting Example: Port Security and Voice VLAN Issues 395
Unified Communications Troubleshooting Example: Invalid Marking of VoIP Packets 399
Unified Communications Troubleshooting Example: ACL and Trunk Issues 405
Troubleshooting Video Issues in a Converged Network 410
Common Video-Integration Issues 410
Video-Integration Troubleshooting Example: Performance Issues Due to STP Topology 416
Video-Integration Troubleshooting Example: IP Multicast Configuration Error 426
Summary 431
Review Questions 433

Chapter 9 Maintaining and Troubleshooting Network Security Implementations 435
Troubleshooting Secure Networks 435
Troubleshooting Challenges in Secured Networks 436
Security Features Review 437

Troubleshooting Management Plane Security 438
The Management Plane 438
Securing the Management Plane 440
Troubleshooting Security Implementations in the Management Plane 442
Troubleshooting Control Plane Security 447
Securing the Control Plane 448
Troubleshooting Security Implementations in the Control Plane 448
Troubleshooting Data Plane Security 449
Securing The Data Plane 449
Securing the Data Plane Using IOS Stateful Packet Inspection 449
Securing the Data Plane Using the Zone-Based Policy Firewall 452
Other Methods of Securing the Data Plane 454
Troubleshooting Security Implementations in the Data Plane 455
Troubleshooting Branch Office and Remote Worker Connectivity 456
Branch Office and Remote Worker Connectivity 456
Identifying Issues with Branch Office and Remote Worker Connectivity 457
Branch Office/Remote Worker Troubleshooting Example: Address *Translation Error* 460
Branch Office/Remote Worker Troubleshooting Example: Crypto Map ACL Error 463
Branch Office/Remote Worker Troubleshooting Example: GRE Configuration Error 467
Branch Office/Remote Worker Troubleshooting Example: Recursive Routing Problem 471
Branch Office/Remote Worker Troubleshooting Example: ACL Denies IPsec Protocols 476
Summary 478
Review Questions 480

Chapter 10 Review and Preparation for Troubleshooting Complex Enterprise Networks 485

Review of Key Maintenance and Troubleshooting Concepts and Tools 485
Applying Maintenance and Troubleshooting Concepts and Tools 488
Summary 491

Appendix A Answer to Review Questions 493

Index 501
